From: Jessica Grzegorski, RDA Examples Editor

Subject: Formal response to RSC/ORDAC/2024/1/rev, Proposal on dual-language naming of corporate body and place

The RDA Examples Editor thanks ORDAC and the Rapid Action Group for the additional time and care they took addressing the issues related to names appearing both in multiple languages and in scripts raised after ORDAC's original proposal. This revised proposal clarifies how to handle a single name value composed of words from more than one language and clearly differentiates these new RDA instruction options from instructions for parallel names.

Recommendation 1: Add a new Condition and Condition Option to [Corporate Body: preferred name of corporate body](#)

Approve.

Recommendation 2: Add a new Condition and Condition Option for [Place: preferred name of place](#).

Approve.
